WinterSchool 2019

Chip Fab of the Future – “Be part of it!” – February 25 to March 1, 2019

Where?

- › Infineon Technologies Austria AG – Villach, Carinthia (Austria)

What?

- › Unparalleled insights into the workings of a semiconductor fab
- › Learn how a 24/7/365 production is made possible, get an understanding of the complex processes and technologies in the fab and get to know the methods and systems in place to ensure consistently high quality
- › Practice & theory with top experts from Infineon and world-class professors
- › Networking: cooperation opportunities for BSc-, MSc- or PhD-theses, internships, etc.
- › PhD Pitches: Pitch your research to peers, industry experts and professors

Who?

- › BSc, MSc & PhD students enrolled at an European university within the fields of Physics, Chemistry, Process Engineering, Electrical Engineering, Materials Science, Mathematics, Statistics, Computer Science, Data Science, Business Informatics, Telematics, Communication- and Network-Technology or similar

Application deadline: January 13, 2019 (Attention: limited number of participants)

Highlights?

- › World-class speakers, fireside chat with top-management, networking between students and Infineon experts, lab tours & interactive market place, social activities
