Product Owner (m/f/x) Cloud Automation

Product Owner | Team Enablement | Agile Methods | fulltime

Do you have an **agile mindset** and experience in **software engineering**? Do you want to combine your **technical strengths** with your **communication skills**? Are you interested in joining an innovative IT company founded in Linz that has been world **market leader** for more than 10 years?

Your role in the team

- You support and **accompany your development team** throughout the entire software development process
- In cooperation with your team and internal stakeholders (product management, architects) you define user stories, and you are responsible for fulfilling the **definition of ready** and meeting the **definition of done**
- You make sure that only ready stories are scheduled in the sprint
- You are the first contact person and moderator for the **presentation of the progress** in sprint reviews and product demos
- You make sure that our product and feature requirements are met

Your profile

- **Technical study** related to Software Engineering
- **Technical education** related to software engineering (HTL, FH, University) or equivalent practical experience in software development
- Work experience as a Product Owner or a related field
- Experienced in **agile software development** and in-depth understanding of software delivery processes
- **Team player** and hands-on person, ability to inspire colleagues: communicative, organized, and visionary
- Joy in learning new technologies and agile methods/tools

You will love this job if

- you look for new challenges **with Angular, React, JavaScript and TypeScript.**
- you appreciate **team spirit** and like swapping new ideas with your teammates.
- an **international environment** is attractive to you.

Teamspirit	World leading technologies	International & diverse	Flexible working hours	Regular team events	Education & training	Ergonomic workplaces	Discount for public transportation	Sports activities	Free fruits & cereals
