

WE'RE MORE THAN SOFTWARE DEVELOPERS.
**IT'S ALL ABOUT
THE EXPERIENCE.**

Senior Software Engineer (m/f/x) Platform Engineering

Microservice Architecture | Kubernetes | Cloud Native | Autonomous Cloud |
Continuous Delivery | Java | TypeScript

Fascinated by cutting-edge cloud technologies? You want to create an exceptional platform experience for numerous development teams? You want to implement the learnings from our own platform delivery efforts in our product to enable our customers to unlock the next level in Autonomous Cloud? Apply and be part of our multifunctional, motivated, and highly talented team.

Your role

- Taking ownership of product components, implementing new features, maintaining them, and keeping your team's technical debt small
- Dealing with complexities in Cloud, CI/CD, Java, and TypeScript, so that the overall technology stack becomes accessible also for more junior engineers
- Driving architectural and design decisions regarding components owned by your team
- Staying on top of technology trends and assessing them for impact on owned components
- Adopt new cloud technologies and best practices to improve product quality and team performance
- Collaborating on managing the team's backlog, making sure implemented technologies align with business goals
- Mentoring more junior and new team members to help them grow as engineers

Your profile

- 5+ years of experience in software development, e.g., with Java, C#, TypeScript, or other high-level languages, including architectural design experience
- Technical studies related to software engineering (or similar)
- Experience with test-driven development, clean code, and design patterns
- Profound knowledge and experience with agile development, CI/CD, and modern DevOps/Automation processes
- Know-how in Kubernetes or Cloud Engineering is an advantage
- Naturally passing on knowledge and experience to fellow team members
- Hands-on team player applying high-quality standards
- Excited to learn new technologies

You will love this job if

- you look for new challenges **with Angular, React, JavaScript and TypeScript**.
- you appreciate **team spirit** and like swapping new ideas with your teammates.
- you take working with agile methods (**Scrum**) for granted.
- an **international environment** is attractive to you.

Due to legal reasons, we are obliged to disclose the minimum salary for this position, which is € 60,000 gross per year based on full-time employment (38.5 h/week). We offer a **higher salary** in line with qualifications and experience.
